

Eco-Friendly Resort Self-Assessment Sheet (14 Key Areas)

This self-assessment sheet helps eco-friendly resorts check their sustainability and community impact. Score each checkpoint from 1 (very poor) to 5 (excellent). Be honest and use this to plan improvements.

1. Energy Use

Checkpoint	Score (1–5)
We use renewable energy (solar, wind, etc.).	
We use energy-efficient lighting and appliances.	
We monitor and reduce electricity use.	
Guests are encouraged to save energy.	

2. Water Management

Checkpoint	Score (1–5)
We collect and use rainwater where possible.	
We reuse or recycle greywater safely.	
We reduce water use in rooms and gardens.	
No chemical pollution goes into local water sources.	

3. Waste Management

Checkpoint	Score (1–5)
We separate waste (plastic, paper, glass, organic).	
We recycle and compost as much as possible.	
We avoid single-use plastic products.	
We train staff to manage waste correctly.	

4. Building Design & Materials

Checkpoint	Score (1–5)
Buildings use natural light and airflow.	
We use eco-friendly or recycled materials.	
Local materials are used where possible.	
Buildings fit the local landscape and culture.	

5. Local Employment & Fair Pay

Checkpoint	Score (1–5)
Most staff come from the local community.	
All staff receive fair wages and benefits.	
We offer training and career growth.	

Local people have leadership positions.	
---	--

6. Local Products & Food

Checkpoint	Score (1–5)
We buy food and goods from local farmers and markets.	
We avoid imported or packaged products.	
We serve seasonal food when possible.	
We support local handicrafts and shops.	

7. Cultural Respect & Community Support

Checkpoint	Score (1–5)
We respect local traditions and religion.	
Guests learn about local culture and life.	
We support community projects (schools, health, etc.).	
We invite local artists and performers.	

8. Environmental Protection

Checkpoint	Score (1–5)
We protect trees, rivers, and natural habitats.	
We avoid pollution of soil, air, or water.	
We plant native trees or support reforestation.	
Wildlife is protected in all resort areas.	

9. Animal Welfare

Checkpoint	Score (1–5)
We do not keep wild animals for shows or entertainment.	
We do not buy or sell animal products.	
We teach guests about local wildlife.	
We work with local groups to protect animals.	

10. Transportation

Checkpoint	Score (1–5)
We offer bicycles or electric vehicles for guests.	
We help guests share rides or use public transport.	
We limit car or bus use in natural areas.	
Suppliers use low-emission transport if possible.	

11. Guest Education

Checkpoint	Score (1–5)
Guests receive information on eco-friendly behavior.	
We offer tours or talks about sustainability.	
Eco-friendly actions are clearly explained in rooms.	
Guests are encouraged to support local people.	

12. Safety & Health

Checkpoint	Score (1–5)
Clean water and food safety are guaranteed.	
Emergency procedures are clear for all staff.	
We provide first aid and fire safety training.	
Guests feel safe and cared for at all times.	

13. Monitoring & Improvement

Checkpoint	Score (1–5)
We regularly check our environmental impact.	
We have goals to reduce energy and waste each year.	
We listen to feedback from staff and guests.	
We update our eco-policy every year.	

14. Transparency & Certification

Checkpoint	Score (1–5)
We have an eco-certificate or plan to get one.	
We publish our eco-friendly actions publicly.	
We work with local or national eco groups.	
We are open about our progress and challenges.
